

Level 6 Data Scientist.

Aimed at individuals who are inquisitive and strategic thinkers who are looking to gain a solid understanding of data science concepts and techniques. Learn technical skills such as programming, big data, advanced analytics, AI, machine learning and robotic process automation, from experienced industry tutors who have previous track record in working with complex data architectures and projects. You'll understand the strategic role of data in your organisation and be able to visualise and present data stories to key stakeholders within the business.

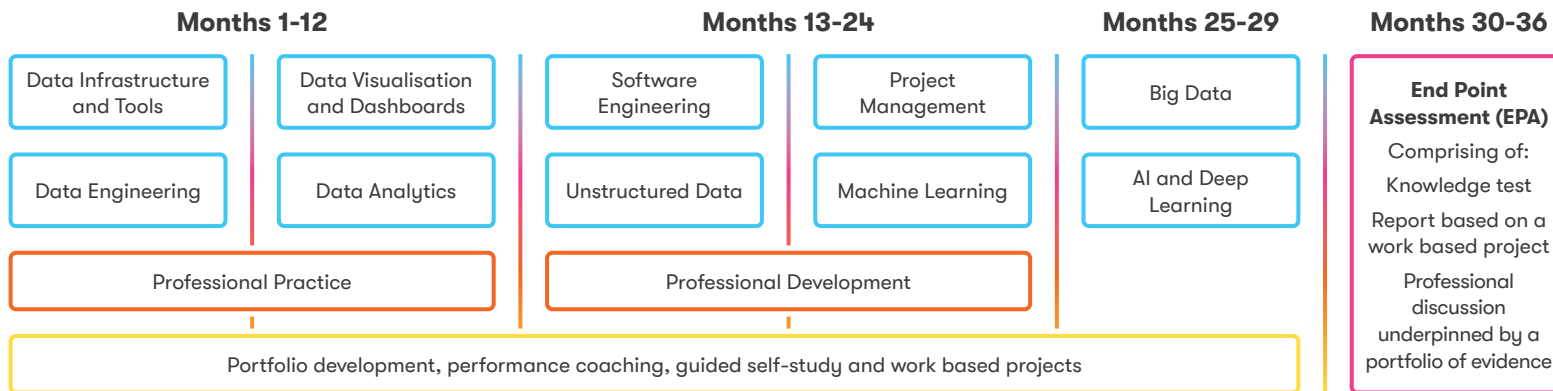

To apply for this programme you must be employed in a relevant role, and meet one of the following requirements:

- 10+ UCAS points and GCSE English and maths (grade C or above), or
- A recognised and equivalent qualification (examinations and experience will be considered), or
- Completion of a level 3 apprenticeship/professional qualification in a relevant discipline

Study mode

Online weekly: Flexible learning that fits to your schedule, with two to three hours of online live lectures and seminars.

36-month programme (inc. EPA)

 Technical modules Work based projects
